**FLORIDA DEPARTMENT OF HEALTH IN MIAMI-DADE COUNTY ISSUES  
PRECAUTIONARY SWIMMING ADVISORY**

**Miami- FL (September 11, 2017)** Due to the potential effects on water quality related to the recent severe weather, the Florida Department of Health in Miami-Dade County has issued a precautionary beach advisory for all public beaches in Miami Dade County

**At this time, swimming is not recommended.**

Tests will be conducted to determine the water quality at these locations. Until those results are available, you should assume that water contact may pose an increased risk of disease, particularly for susceptible individuals. There may also be unseen debris hazards under water.

**About the Florida Department of Health**

The department, nationally accredited by the [Public Health Accreditation Board](#), works to protect, promote and improve the health of all people in Florida through integrated state, county and community efforts.
