“So subsection 381.003(12), Florida Statutes, provides that “Any practitioner licensed in this state to practice medicine, osteopathic medicine, chiropractic medicine, naturopathy, or veterinary medicine; any hospital licensed under part I of chapter 396, or any laboratory licensed under chapter 483 that diagnoses or suspects the existence of a disease of public health significance shall immediately report the fact to the Department of Health.” Florida’s county health departments serve as the Department’s representative in this reporting requirement. Furthermore, subsection 381.003(4), Florida Statutes, provides that “The Department shall periodically issue a list of infectious or non-infectious diseases determined by it to be a threat to public health and therefore of significance to public health and shall furnish a copy of the list to the practitioners...”
