**Miami, Fla. —** The Florida Department of Health in Miami-Dade County (DOH-Miami-Dade) has issued a water quality advisory for the following location:

**Haulover Beach South**  
**Miami, FL 33154**

and

**Crandon Park North**  
**Miami, 33149**

Tests completed on Tuesday, July 11, 2024, indicate that the water quality at Haulover Park North and Crandon Park North do not meet the recreational water quality criteria for *Enterococcus* bacteria recommended by the Florida Department of Health.

DOH-Miami-Dade advises against any water-related activities at this location due to an increased risk of illness in swimmers. Sampling conducted during regular water quality monitoring showed that the level of bacteria exceeds the level established by state guidelines.

This advisory will continue until bacteria levels are below the accepted health level. Test results are available at [FloridaHealth.gov/HealthyBeaches](https://FloridaHealth.gov/HealthyBeaches).

For more information call 305-324-2400 or visit [MiamiDade.Florida.Health.gov](https://MiamiDade.Florida.Health.gov).
